SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

Dear Sir:

Applicant hereby attaches U.S. Patent Office Form PTO-1449, including copies of the references listed therein. These references were cited in the enclosed Japanese Office Action dated February 15, 2011 issued in the underlying Japanese patent application. Applicant wishes to have the enclosed Supplemental Information Disclosure Statement placed in the patent file. The '520 U.S. Patent is a U.S. counterpart for the JP '291. Applicants are not providing copies of the U.S. Patent Reference as the Office waived the requirement.

This information disclosure statement is being made pursuant to the duty of disclosure imposed by law and formulated in 37 CFR 1.56(a). No representation is made that the information thus disclosed in fact constitutes prior art or that it is the closest prior art, inasmuch as 37 CFR 1.56 (a) relies on a materiality concept which depends on subjectivity.

In compliance with the requirements of 37 C.F.R. §1.98(a)(3), as a concise statement of relevance, as it is presently understood by the individual designated in 35 U.S.C. §1.56(c) most knowledgeable about the content of the information, the undersigned attorney of record submits

a translation of portions of an official action by a foreign examiner in which the references were cited. The relevance to the U.S. patent is that these references were cited in a foreign patent application on the same subject matter. However, no independent analysis of the references, the accuracy of the statement of the foreign examiner, or the claims of the foreign application under the laws of the country or the United States relative to the subject matter claimed in the present patent has been made.

Respectfully submitted,

Norman P. Soloway
Attorney for Applicant
